The Do-It-Yourself **UNEXPECTED 20™** Envelope

HOW “UNEXPECTED 20S” WORK

Look for one person working in a restaurant or hotel invisible to others. It very well could be someone in the kitchen or behind the scenes. Then give them this **Unexpected 20™** envelope with a \$20 bill inside. Tell them simply it is a gift for them... no strings attached. Don't even expect thanks. They may not realize until you leave that what really is in their hand is a gift... not a payment or a tip... **a gift.**

Or try this... at the end of your meal, when your server drops off the bill, tell him or her you are going to leave a great tip (and then do it... 30% or more), but you also wanted to give them this (the envelope with the \$20 inside) and ask the server to pass it on to the person in the restaurant who has had the hardest week or they know is struggling.

WHY CARE?

The highest concentration of needed is hidden behind the smiles of those working in restaurants and hotels. One in six lives below the poverty line. Most don't have basic benefits. And a large part of the workforce is comprised of our most vulnerable neighbors – single parents, income insecure seniors, at-risk teens, immigrants, and those formerly incarcerated ready to make a new start.

Many struggle with addiction and mental health issues. Many are barely hanging on. And when someone does fall, there's not a safety net to catch them.

Big Table serves hope. You can, too. One life at a time, we can do it together... and this covert caring operation you hold in your hand right now is a very fun way to start.
